Hello Nguyen

Thank you for your information!

We have increased your account limits further. Please try deploying additional instances now.

To review your limits please go to: <https://my.vultr.com/billing/#billinglimits>

Please keep in mind that instances in a active/stopped state continue to reserve dedicated system resources (RAM, SSD storage, IP aliases, CPU) and therefore incur charges until you destroy the instance.

When you wish to no longer accumulate charges for a virtual machine, please use the DESTROY button in the customer portal.

If you need further assistance please do not hesitate to contact us, we are happy to help.

Thank you for choosing Vultr.

Have a great day!
